

## Samsung printers win at Buyers Laboratory Pick Awards

The Buyers Laboratory (BLI) Pick Awards have recognised Samsung's printing expertise in performance and energy efficiency.

The Xpress M2875/2825 series and ProXpress M4020ND won in the Performance category, while the CL 6260FW, CLX-6260FD, and CLP-680 Series printers won in the environment category. The printers received Outstanding Achievement awards, the independent authority's highest accolade.

"The company's mono, colour laser and multi-function printers reflect our commitment to create powerful, attractive products that meet consumer demands for performance, cost efficient and energy efficiency," says Mike van Lier, business leader for IT solutions at Samsung South Africa. "We are honoured by the awards from BLI and we consider them excellent recognition for our continued effort in discovering new possibilities in printer innovation."
