

Acer products now available online in SA

Acer, a global brand in consumer technology hardware, software and services in IoT, has announced that it is introducing its first online store in South Africa, [Shop Acer](#).

The site will include Acer's bestselling products and exclusive deals and special offers will be available during peak seasons and holiday periods. This includes laptops, desktops, monitors, projectors, accessories and gaming, all of which can be delivered free of charge. As part of the launch, Acer will be offering customers exclusive deals of up to 50% off.

Marketing manager at Acer Africa, Belinda Marais says, "We are delighted to finally announce that the Shop Acer store is now live. The store will stock all the brand's products available in South Africa and aims to provide our customers with an exclusive experience and a direct link to the brand and its services."
