

Boney M to tour South Africa this Christmas

Euro-Caribbean group Boney M, featuring Liz Mitchell, will be performing at the Kirstenbosch National Botanical Garden on 23 December and the Sun Arena, Time Square, Menlyn Maine on the 24 December.

Still the only band to appear twice in the 'top 11 best-selling singles of all time in the UK for *Rivers of Babylon* and *Mary's Boy Child/Oh My Lord*, they dominated the European charts in the late 70s and early 80s. Eight albums and 43 years later, Boney M is still performing sold out shows all over the world, evidence of their timelessness.

This will be their third visit to South Africa, the first a 10-show run at Sun City Super Bowl in 1984 and the second a string of Christmas shows across the country in 2011.

Although the group has gone through numerous member changes, super fans will be very happy to know that Liz Mitchell, the original lead singer of Boney M, will be performing.
